Ready for a Workout!™

The Ranger® 305 G is a powerful multi-process stick, TIG, wire and pipe welding engine-driven welder that is ready for all day, everyday performance. It includes Lincoln  Chopper Technology® for superior arc performance.

FEATURES

▶ Multi-Process Welding

- Excellent DC multi-process welding for general purpose stick, downhill pipe (stick), TIG, cored-wire, MIG (CO₂ and mixed gas) and arc gouging.
- Only compact gasoline welder in North America rated at 29V for 300 amps of stick or CV welding.
- CV wire welding with up to 5/64 in. (2.0 mm) diameter electrodes.

▶ Digital Weld Meters

- Digital weld meters for amps and volts makes it easy to precisely pre-set your procedures and monitor actual welding output.

▶ Superior Arc Performance

- Lincoln  Chopper Technology – provides easy starts, a smooth arc, low spatter and excellent bead appearance.

▶ 10,500 Watts Peak Single-Phase AC Generator Power

- 10,500 watts peak for motor starting.
- 9,500 watts continuous for high capacity needs such as a back-up generator, powering a Lincoln Inverter® inverter welder. Also use for lights, a grinder or other power tools.
- AC generator voltage is constant at 120V or 240V at any weld dial setting.

300 Amp DC Gasoline Engine Driven Welder/Generator

APPLICATIONS

- ▶ Construction
- ▶ Maintenance and Repair
- ▶ Pipe
- ▶ Ranch/Farm

FEATURES CONTINUED

▶ Skewed Rotor Design

- Skewed rotor design provides AC power suitable for operating Lincoln Electric inverter power sources. Lincoln Electric was the first in the welding industry with this feature.

▶ Rugged Reliability

- Welding and AC Generator Outputs rated at 104°F (40°C).

▶ 23 HP Kohler® Gasoline Engine - Plenty of Engine Horsepower

- Electric fuel pump is standard. For all locations including high altitude operation.

**LINCOLN®
ELECTRIC**
THE WELDING EXPERTS®

Welding Performance

- Lincoln  Chopper Technology.
 - Easy Starts.
 - Smooth Arc.
 - Low Spatter.
 - Excellent Bead Appearance.
- CC-Stick mode is optimized for general purpose stick using E7018 low hydrogen electrodes.
- Downhill Pipe welding mode is excellent for cellulosic electrodes, such as Lincoln Electric Fleetweld® 5P+. This mode delivers fast travel speeds, especially on fill passes.
- Arc force control provides a soft or more forceful digging arc in CC-stick or downhill pipe mode and inductance/pinch control in CV wire mode.
- Built-in “hot” start for easier starts and restrikes minimizing the electrode “sticking” to the work.
- Touch Start TIG® (DC) - lift tungsten to start the arc. No high frequency required. Avoids tungsten contamination in the weld. Voltage sensing output stops the arc when the torch is lifted at the end of the weld - increased operator appeal.
- Arc gouging with up to 3/16 in. (4.8 mm) carbons.

AC Generator Performance

- 10,500 watts peak AC generator power. Use for motor starting.
- Up to 40 amps at 240V from the 120V/240V receptacle with weather resistant cover. Circuit breaker protection.
- Two 120V 20 Amp duplex receptacles with weather resistant covers. Circuit breaker protection. Will operate up to 9 in. grinder.
- Nominal 120V and 240V AC generator voltage is independent of any weld dial setting. This is done with one generator system (rotor/stator) using Lincoln  Chopper Technology®, avoiding the complexity of two generator (rotor/stator) systems.

SIMULTANEOUS WELDING AND POWER LOADS

Welding Output (Amps)	Continuous Power (Watts)
300	0
250	2,300
200	4,200
150	5,600
100	7,100
0	9,500

FEATURES

- Simple Controls – Keep training time to a minimum with the straightforward control panel of the Lincoln Electric Ranger® 305 G. The flip-down control panel door keeps less frequently used controls out of the way.
- Single, full-range output control dial. No confusion with taps and controls!
- 4 welding modes: CC-Stick, Downhill Pipe, CV-Wire, and Touch Start TIG®.
- Dual digital output meters for presetting weld amps for stick, TIG or downhill pipe modes, or voltage for CV wire mode. Also displays actual outputs while welding. Memory feature holds output readings for 7 seconds after welding stops for viewing by the operator.
- Output at welding terminals controlled by electronic contactor. Can be switched to “On”, or to “Remotely Controlled.”
- Remote output control is auto-activated when plugged into a 6-pin connector. **NEW!** For the downhill pipe mode, the machine output dial becomes a maximum current limit for more fine tuning with the remote control dial.
- Compatible with many Lincoln Electric wire feeders including the LN-25 PRO, LN-15, LN-35, LN-23P, LF-72, LF-74, LN-7, LN-7 GMA, LN-742, LN-8, wire feeders and Magnum® SG Gun.
- Wire feed voltmeter switch matches polarity of wire feeder volt meter to polarity of electrode.
- Top-of-the-line Kohler® OHV 23 HP Command® engine.
- 12 gallon fuel capacity allows you to run an extended day.

- Fully enclosed case for equipment protection and low noise. Noise at rated load:
 - 101.3 dB sound power (Lwa)
 - 76.7 dBA sound level at 23 ft. (7 m)
- Electric fuel pump avoids vapor lock. Assures consistent fuel delivery in locations having a combination of high altitude, warm ambient temperatures, and high anti-pollution additives in gasoline.
- NEW!** Combination electric fuel gauge and engine hour meter located on control panel. Easily check both fuel level and hours of operation. Fuel gauge helps you virtually eliminate running low on fuel during critical jobs. Hour meter helps plan for scheduled engine maintenance.

- Large top fuel filler neck is easily accessed for refueling.
- Electric start.
- Oil drain valve (no tools required) with removable extension tube.
- Convenient truck or trailer mounting with front and rear holes in base.

KEY CONTROLS

1. Output Control Dial
2. Digital Weld Output Ammeter
3. Weld Mode Switch
4. Arc Force & Inductance/ Pinch Control Dial
5. Circuit Breakers
6. 120 Volt AC Receptacles (NEMA 5-20R)
7. Output Stud Covers
8. Ground Stud
9. 120/240 Volt AC Full KVA Receptacle (NEMA 14-50R)
10. 6-Pin Remote Control & 14-Pin Feeder Connectors
11. Wire Feeder Voltmeter Polarity Switch
12. Welding Terminals Control Switch
13. Digital Weld Output Voltmeter
14. Idler Control Switch
15. Push-Button Start Switch
16. Engine Choke Control
17. Run/Stop Switch
18. Electric Fuel Gauge and Engine Hour Meter

QUALITY AND RELIABILITY

- Printed circuit boards are environmentally-shielded using Lincoln's engineered potting and protective frame trays.
- Oil dip stick, filters, spark plugs, etc. are easily accessed with left, right and top engine doors. Left and right doors are removable for service.
- Adjust exhaust direction with top-mounted 360° rotatable exhaust muffler. Muffler made from aluminized steel for longer life.
- Attractive red and black powder paint finish offers increased durability with added protection from rust and corrosion. Also ultraviolet resistant to better retain color and gloss.
- Longer engine life, reduced noise emissions and greater fuel economy with automatic engine idler.
- Conveniently located engine maintenance label under top engine door.
- Automatic engine shutdown protection for low oil pressure.
- Reliable start-up with Group 58 battery with 435 cold cranking amps.
- Easy access battery cover.
- Optional K1690-1 GFCI (Ground Fault Circuit Interrupter) Kit available for additional protection from electrical shock.
- Dependability and long life aided by all-copper windings in rotor and stator with high quality insulation.
- Approved by Canadian Standards Association (CSA).
- Manufactured under a quality system certified to ISO 9001 requirements and ISO 14001 environmental standards.
- Three year Lincoln Electric warranty (parts and labor) on welder. (Engine is warranted separately by the manufacturer.)

Make the Ranger® 305 G your portable welding station – General stick and downhill pipe, Touch Start TIG®, MIG, Flux-cored and AC generator to power lights, grinders or other power tools.

- (1) DC constant voltage capability provides convenience and added safety when welding in electrically hazardous conditions.
 (2) When welding, available auxiliary power will be reduced. Output voltage is within +/- 10% at all loads up to rated capacity.
 (3) 120V will operate either 60 Hz or 50/60 Hz power tools, lights, etc.
 (4) Circuits cannot be wired in parallel to operate the same device.

SYSTEM SELECTION

One-Pak® Welding Package

Order a Lincoln Electric One-Pak® and get everything you need to complete a welding package - all with one order number.

(Package is not assembled.)

Ranger® 305 G

K704 Accessory Kit

KP1697-068 Drive Roll Kit

Each UNASSEMBLED Package Contains:

- Ranger® 305 G (K1726-5 with electric fuel pump)
- Accessory Kit (K704)
- LN-25 PRO Wire Feeder (K2613-1)
- Gun and Cable (K126-12)
- Drive Roll Kit (KP1697-068)
- .072 in. (1.8 mm) NR-232 25 lb. (11.3 kg) Spool (ED030644)

K2613-1 LN-25 PRO Wire Feeder

K126-12 Gun and Cable

.072 in. (1.8 kg) NR-232 25 lb. (11.3 kg) Spool

Order: K2353-2

120V

GENERAL OPTIONS

Power Plug Kit

Provides four 120V plugs rated at 20 amps each, and one dual voltage, full KVA plug rated at 120/240V, 50 amps. 120V plug may not be compatible with common household receptacles.

Order K802N

Full-KVA Power Plug

One dual voltage plug rated at 120/240V, 50 amps. NEMA 14-50P.

Order T12153-9

GFCI Receptacle Kit

Includes one UL approved 120V ground fault circuit interrupter duplex type receptacle and installation instructions. Replaces the factory-installed 120V duplex receptacle. Each receptacle of the GFCI duplex is rated at 20 amps. Maximum total current from the GFCI duplex is limited to 20 amps. Two kits required for all 120V receptacles on the Ranger® 305 G.

Order K1690-1

Spark Arrestor Kit

Attaches to muffler exhaust tube. Virtually eliminates spark emissions.

Order K1898-1

Canvas Cover

To protect the engine drive when not in use. Made from attractive red canvas material that is flame retardant, mildew resistant and water repellent.

Order K886-2

All-Terrain Undercarriage

For moving by hand at construction sites. Maneuvers over obstacles. Heavy-duty puncture-resistant (inner tube and sealant) tires.

Order K1737-1

Factory Undercarriage

For moving by hand on smooth surface floors. Heavy-duty, puncture-resistant (inner tube and sealant) tires and front caster. Convenient steering handle.

Order K1770-1

Welding Gas Cylinder/LPG Tank Holder

Holds welding gas cylinder or LPG tank (for products with LPG engine). For LPG: Use one holder for LPG tank and a second holder for welding gas cylinder. Both holders will attach to the K1770-1 undercarriage.

Order K1745-1

Small Two Wheel Welder Trailer

For heavy-duty road, off-road, plant and yard use. Includes pivoting jack stand, safety chains, and 13 in. (330.2 mm) wheels. Stiff .120 in. (3.1 mm) welded rectangular steel tube frame construction is phosphate etched and powder coat painted for superior rust and corrosion resistance. Low sway suspension gives outstanding stability with manageable tongue weight. Wheel bearings are packed with high viscosity, high pressure, low washout Lubriplate® grease. Includes a Duo-Hitch™, a 2 in. (50.8 mm) ball/lunette eye combination hitch. Overall width 60 in. (1524 mm).

Order:

K2635-1 Trailer

K2639-1 Fender & Light Kit

K2640-1 Cable Rack

Polarity/Multi-Process Switch

For easy polarity switching. Example: DC-stick root pass on pipe & DC+ stick for hot, full and cap passes. Also for an easy process change. Example: DC+ stick root pass on pipe & DC- Innershield® self-shielded flux-cored wire for hot, fill and cap passes. 6 & 14-pin remote connections can be made to this unit. For all Lincoln Chopper Technology® engine-driven welders. Mounts on roof with K2663-1 Docking Kit.

Order K2642-1

Docking Kit

Secures the K2642-1 Polarity/Multi-Process Switch to the engine-driven welder roof. Release latch permits removal of K2642-1 Polarity/Multi-Process Switch. Made from stainless steel for rust-free operation. For all Lincoln Chopper Technology® engine-driven welders.

Order K2663-1

STICK OPTIONS

Accessory Kit

For stick welding. Includes 35 ft. (10.7 m) #2/0 electrode cable, 30 ft. (9.1 m) #2/0 work cable, headshield, work clamp and electrode holder. 400 amp capacity.

Order K704

Accessory Kit

For stick welding. Includes 20 ft. (6.1 m) #6 electrode cable with lug, 15 ft. (4.6 m) #6 work cable with lugs, headshield, filter plate, work clamp, electrode holder and sample pack of mild steel electrode. 150 amp capacity.

Order K875

Remote Control Kit

Consists of a control box with choice of two cable lengths. Permits remote adjustment of output.

Order K857 for 25 ft. (7.6 m)

K857-1 for 100 ft. (30.5 m)

Remote Output Control with 120V AC Receptacles

Remote weld output control box with two 120V AC receptacles having GFCI (ground fault circuit interrupter) protection. One cord for both remote and power. 100 ft. (30.5 m) length. Permits remote adjustment of weld output and power for tools (such as a grinder) at the work. (20 amp capacity).

Order K2627-2

TIG OPTIONS

Pro-Torch™ PTA-26V TIG Torch

Air-cooled 200 amp torch equipped with valve for gas flow control. 25 ft. length.

Order K1783-9

Foot Amptrol™

Varies current while welding for making critical TIG welds and crater filling. Depress pedal to increase current. Depressing pedal fully achieves maximum set current. Fully raising the pedal finishes the weld and starts the afterflow cycle.

Includes 25 ft. (7.6 m) control cable.

Order K870

Hand Amptrol™

Provides 25 ft. (7.6 m) of remote current control for TIG welding. (6 pin plug connection). Velcro straps secure torch.

Order K963-3 (one size fits all Pro-Torch® TIG torches).

Magnum® Parts Kit for PTA-26V TIG Torch

Provides all the torch accessories you need to start welding. Parts kit provides collets, collet bodies, a back cap, alumina nozzles and tungstens in a variety of sizes, all packaged in an easy to carry reclosable pack.

Order KP509

Precision TIG® 225 Ready-Pak®

For AC TIG welding with square wave performance, use the AC generator of the engine-driven welder to supply the power. Full rated output may not be available. Easy setup. Includes torch, foot amptrol, gas regulator and hose. Requires the K1816-1 Full KVA adapter kit.

Order K2535-1

RECOMMENDED ACCESSORIES TO EXPAND MACHINE CAPABILITIES

TIG OPTIONS, CON'T.

Invertec® V205-T AC/DC One-Pak® Package

For AC TIG welding with square wave performance use the AC generator of the engine-driven welder to supply the power. Full rated output may not be available. Easy setup. Includes torch, parts kit, regulator and hose kit, Twist-Mate™ torch adapter, work cable with Twist-Mate™ end, and foot Amptrol®. Requires the K1816-1 Full-KVA Adapter Kit.

Order K2350-2

Full - KVA Adapter Kit

Provides convenient connection of Lincoln Electric equipment having a 240V AC 1-phase plug (NEMA 6-50P) to the full-KVA receptacle on Lincoln engine-driven welders.

Order K1816-1

WIRE FEEDERS

LN-25 PRO Wire Feeder

Portable CC/CV unit for flux-cored and MIG welding with MAXTRAC® wire drive system. Includes gas solenoid and internal contactor.

Order K2613-1

K126 PRO Innershield® Gun (for LN-25 PRO)

For self-shielded wire with 15 ft. (4.5 m) cable. For .062-5/64 in. (1.6-2.0 mm) wire. Includes K466-10 Connector Kit.

Order K126-12

Drive Roll and Guide Tube Kit (for LN-25 PRO)

For cored or solid steel wire. Order KP1697-068 for .068-.072 in. (1.8 mm) Order KP1697-5/64 for 5/64 in. (2.0 mm)

Magnum® PRO 350 Ready-Pak® 15 ft., .035-5/64 in.

Magnum® PRO MIG/flux-cored welding guns are rated 100% duty cycle. The guns are designed for high amperage, high duty cycle applications in extreme environments where heat-resistance and fast serviceability are key.

Order K2652-2-10-45

Drive Roll and Guide Tube Kit (for LN-25 PRO)

For .035-.045 in. (0.9-1.1 mm) solid steel wire.

Order KP1696-1

Magnum® SG Spool Gun

Hand held semiautomatic wire feeder. Requires SG Control Module

Order K487-25

SG Control Module

The interface between the power source and the spool gun. Provides control of wire speed and gas flow. For use with a spool gun.

Order K488

Input Cable (For SG Control Module)

For Lincoln engine power sources with 14-pin MS-type connection, separate 115V NEMA receptacles and output stud connections.

Order K691-10

Power MIG® 180C

Premium compact wire welder with continuous voltage control for MIG and flux-cored welding. 30 to 180 amp output range. Get input power from the AC generator of the engine-driven welder with the K1816-1 Full-KVA Adapter Kit (required). Add the K2532-1 Magnum® 100SG Spool Gun for aluminum MIG welding.

Order K2473-1

Full-KVA Adapter Kit

Provides convenient connection of Lincoln Electric equipment having a 240V AC 1-phase plug (NEMA 6-50P) to the full-KVA receptacle on Lincoln engine-driven welders.

Order K1816-1

Magnum® 100SG Spool Gun

Designed to easily feed 4 in. (102 mm) diameter 1 lb. (0.45 kg) spools of .030 in. (0.8 mm) or .035 in. (0.9 mm) diameter SuperGlaze® aluminum MIG wire. Includes gun, adapter kit, .035 in. (0.9 mm) contact tips (qty. 3), gas nozzle, and a 1 lb. (0.45 kg) spool of SuperGlaze® 4043 .035 in. (0.9 mm) MIG wire. Packaged in a convenient carrying case.

Order K2532-1

CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to Change – This information is accurate to the best of our knowledge at the time of printing. Please refer to www.lincolnelectric.com for any updated information.
